Integrated Design, Wonders within

Embracing inner clarity becomes a new philosophy of living. Touch-T tames its power into invisibility with a built-in design that sits flush against the wall, enabling you to begin every day by simply enjoying the shower—and enjoying life.

Touch-T Control Panel, 4 Way, Brushed Brass

Sleek Design, Hidden Brilliance

The Touch-T Control Panel adopts a highly integrated design, enabling easy installation and maintenance. Constructed with high-hardness, corrosion-resistant materials, it effectively withstands concrete erosion, guarantee long-term durability. The integrated hand shower holder allows for effortless handling, minimizes hard to clean areas, and helps maintain a clean and organized space.

38°C Constant Temperature, Dual- valve Synergy

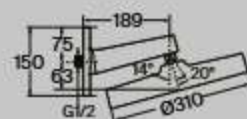

The 38° Safety Lock keeps the water temperature fixed at 38° by default, preventing accidental temperature increases for a more secure shower experience.

Our thermostatic valve responds instantly to maintain your chosen temperature, preventing sudden fluctuations. Touch-T flow-control valve provides 180° precise water volume regulation, Enjoy a stable, uninterrupted flow fine tuned through a knob that turns with effortless smoothness.

Our Planet Our Home

We are committed to putting people and the planet at the center of every decision we make. Because creating a sustainable future starts with the spaces we live in, and how we produce these spaces is key. That's why we craft products that bring comfort, beauty, and balance to your home, while protecting the planet every step of the way.

Every detail matters: from eco-designing products that last a lifetime to minimizing emissions, using clean energy, and reducing water and resource consumption. We believe that a home - whether our own or the planet we all share - should be a place of wellbeing, harmony, and care. This belief guides our comprehensive approach to sustainability, which involves taking a wide range of actions, such as reusing and recycling more, improving our processes, and ensuring access to water and sanitation for those who need it most, among many other initiatives.
